**Wednesday - 22 October 58**

1. Sherman Kent, John Hicks and John S. Warner participated in a briefing of the Far East Subcommittee of House Foreign Affairs from 10:30 until 5 o'clock on the Formosa situation. Approximately ten members of the Foreign Affairs Committee were present including the Chairman, Dr. Morgan. The State and DOD representatives were the principal witnesses and the part played by CIA was very small. No difficulties were encountered and the Subcommittee Chairman, Mr. Zablocki, was very grateful for our assistance. See memorandum for the record for full details.

2. Al Westphal on the staff of House Foreign Affairs Committee inquired if we had any information concerning Paul Deac of the National Conference of Ethnic Groups. I said we had some information and would be glad to pull it together to brief him.
